## PROFESSIONAL BANQUETING FURNITURE

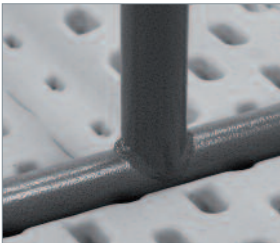

### QUALITY construction

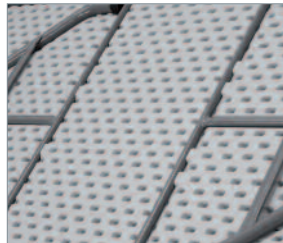

Pure polyethylene, with UV protection. Shock-proof, constructed to withstand heavy loads, suitable for outdoor use.

Metal profiles of a thickness designed to withstand extreme loads.

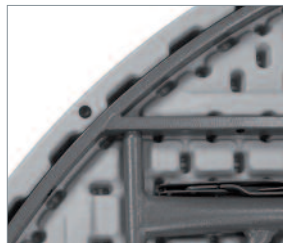

Continuous digitally welded joints. Precise and indestructible. Powder-coated steel. Shock-proof and damp-proof.

High density of vaults in the lower surface of the table top. Resistant and non-warping.

Individual polypropylene clip to hold the leg in position when folded.

Slip-resistant fasteners for secure stacking.

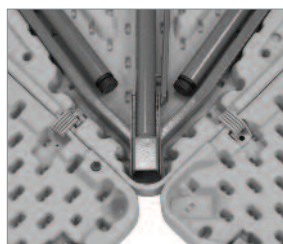

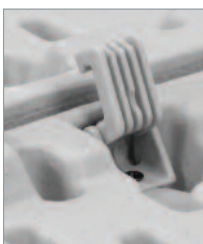

Solid welded joints, nuts and bolts.

Metal structures designed to optimise the weight/resistance ratio.

Joinable system fitted with easy-to-use clips

The ZOWN furniture systems have been manufactured for intensive use that easily and rapidly adapts to multiple functions. Specifically designed for, Hotels, Restaurants, Banqueting, Conferences and Outdoor Catering. Comfortable for end users, with a broad range of compatible models of various sizes, durable and low maintenance. Portable, Shock Proof, Stable and Load Bearing.

Every piece can be assembled and disassembled rapidly, safely and repeatedly for ease of storage and transport. Manufactured from easy-to-clean, hygienic materials. Damp, UV Proof and above all suitable for both interior and exterior use.

When only the Very Best Will Do, then ZOWN by Crombie & Paul will surpass your exacting requirements.
